Sir:

**REMARKS**

Applicant offers the following comments in response to the Examiner's Statement of Reasons for Allowance set forth on page 2 of the Notice of Allowability dated June 22, 2009. The Reasons for Allowance only loosely paraphrases the actual claim language. The Examiner states that the claims recite, in part, a system for sensing conditions within a tire (emphasis added). Applicants submit that the claimed invention recites that the conditions of a tire (not only within a tire) can be detected.

Patent Office personnel are requested to note that the present submission does not adversely affect the patent term adjustment accrued by the Applicant to date. As emphasized in the "Clarification of 37 C.F.R. §1.704(c)(10) – Reduction of Patent Term Adjustment for Certain Types of Papers Filed After a Notice of Allowance Has Been Mailed," 1247OG111 (6/26/01), "a

response to the examiner's reasons for allowance" is an example of a paper that does "not cause substantial interference and delay in the patent issue process" and is "not considered a 'failure to engage in reasonable efforts' to conclude processing or examination of the application."

Therefore, the Applicant remains entitled to the full patent term adjustment set forth on page 3 of the Notice of Allowance dated June 22, 2009.

Respectfully submitted,
